IADC Therapy Contract

Donna Morrish has explained the following to me, and having a full understanding of each item, I have agreed to participate in this IADC treatment.

I am aware that Donna Morrish does not strictly follow the standard eye-movement desensitization and reprocessing (EMDR) protocol, and therefore, I understand that the research that supports EMDR does not necessarily support the IADC method of eye-movement treatment.

1. I am aware that for this procedure to be successful, I must be willing to be honest and straight-forward in response to the screening questions.
2. I understand that to benefit from the IADC procedure, there may be times that I will be required to tolerate an extreme degree of emotional discomfort.
3. I understand that after-death communications (ADC's) are naturally occurring experiences and that the likelihood an ADC is increased with the IADC procedure. However, I am also aware that Donna Morrish cannot guarantee that I will have an IADC experience.
4. I agree to pay Donna Morrish \$150 for each 60-minute session or any portion thereof. For instance, a 61-90 minute session would be \$225.
